Tailored for Your Home, Trusted for Your Safety

Eazy Ride Plus is a customizable home lift solution designed to seamlessly blend with your home's architecture and lifestyle. Powered by Johnson Lifts, a trusted leader in vertical transportation for over six decades, Eazy Ride Plus combines safety, convenience, and cutting-edge technology to elevate your everyday.

With customizable features, Eazy Ride Plus ensures each lift is tailored to your unique requirements, offering a perfect balance of design and functionality. Prioritizing your safety, this lift comes equipped with advanced systems that guarantee peace of mind, reliability, and effortless mobility.

Advanced Features for Seamless Performance

Innovation | Quiet | Comfortable | Safe

Eazy Ride Plus is engineered with state-of-the-art technology to deliver unmatched reliability, safety, and convenience in your home. Every feature is thoughtfully designed to enhance your daily living experience, ensuring seamless performance at every step.

Battery Drive System

Ensures uninterrupted operation with a reliable Lithium Ion battery power bank.

Extended Ride Capacity

Delivers up to 256 continuous rides on a full charge, ensuring convenience and efficiency.

Elegant Appearance

Beautifully crafted controllers with high-profile designs to complement any home aesthetic.

Stable and Secure

Equipped with a Battery Management System for real-time battery health monitoring, automatic re-leveling during low power, and automatic rescue functionality in case of battery failure.

Silent Operation

Noise-free functionality with no contactors, fans, or brake resistance for a peaceful environment.

Traction Belt Driven

Offering a quiet ride, long lifespan, and compatibility with small shaft spaces

Compact Controller

Sleek and integrated design measuring just 325mm x 425mm x 50mm for optimal space utilization.

- Completely hidden installation, more novel and beautiful
- High performance drive platform
- Completely designed for comfort to have a smooth experience
- DC 48V power supply ensures constant power, without requirement of ARD or breakresistor
- Integration of a variety of security features, so that you can always enjoy the peace of mind
